[Email-ujjwal18vit@gmail.com](mailto:ujjwal18vit@gmail.com)

Q1. Program to find particular character in a string.

```
ans.- let name="ujjwal";  
      console.log(name);  
      console.log(name.indexOf("w"));           //to find the index position of "w" character.
```

Q2. Program to convert minutes to seconds.

```
ans.- let min=10;  
      let sec=min*60;  
      console.log("The min "+min+" in seconds are :"+sec);
```

Q3. Program to search element in a array of strings.

```
ans.- let fruits=["Apple","Mango","Banana","Pineapple"];  
      let f="Cherry";  
      let count=0;  
      for(let i=0;i<fruits.length;i++)  
      {  
          if(f==fruits[i])  
          {  
              console.log("Found");  
              count++; break;  
          }  
      }  
      if(count==0);  
      {  
          console.log("Not Present");  
      }
```

Q4. Print an array in reverse order

ans.- let numbers=[1,2,3,4,5,6,7,8,9,10];

console.log(numbers);

console.log(numbers.reverse());

//Printing in reverse order.

Q5. Program to display only elements containing 'a' in the term of array.

ans. let names=["ram","rohit","aman","raj","suresh","kriti","ujjwal"];

for(let i=0;i<names.length;i++)

{

if(names[i].indexOf("a")!=-1)

{

console.log(names[i]);

}

}
